Insulated Component Structures of FL
2225 Hwy 44 West
Eustis, FL 32726

Dear Forrest and Ron,

With over 20 years experience in the construction industry, I have never experienced anything so unique and efficient as your insulated panels.

When we added space to Classique Bowling Center, the panels were placed with ease with the help of Tony McKeon and general laborers and within a day and a half, all of the panels were set in place. If this had been constructed with sticks and bricks, it would have taken well over a week to finish with left over material laying around. I saved on the labor cost as well as the energy cost that I have already seen in my electric bill.

I was so impressed with the way that the panels functioned, that I decided to build my mother-in-law a home in Umatilla. Once again, I was amazed at how the panels were erected, how well the windows fit into the panels and the many favorable comments I received from friends and associates that watched the installation.

Please feel free to call on me as a reference at any time. It was a real pleasure working with you.

Wishing you the best,

Greg Gruetzmacher

A handwritten signature in dark ink that reads 'Greg Gruetzmacher'. The signature is written in a cursive style with a large, prominent 'G' at the beginning.
